

50/60/70 year Anniversary recognition for ACS members

This year, we invited the ACS members who were celebrating 50, 60 and 70 years as ACS members to join us for lunch at Matthews Restaurant (in Catonsville) on July 15th 2026. While we had nearly 29 recipients who qualified for the recognition, only four members were able to join us on that day.

Attached are some photos from the event. The attendees (recipients) were Richard Bush, Jan Kolakowski, Bonnie Robeson and Nirupam Trivedi. Stephanie Watson, who is the Chair of the membership awards committee distributed the certificates to the recipients. We had a delicious lunch, followed by an array of excellent dessert options and an enjoyable and interesting conversation with the attendees. They shared stories and anecdotes of their research, remarkable career trajectories, and their passion for chemistry was very evident from these conversations. The remaining certificates have been mailed to the members to the home addresses that were provided. Congratulations again to all of you and thank you for being members and for your support of the local section!
